

WOMEN IN BLUE ECONOMY

INTELLIGENCE GATHERING
AND CAPACITY BOOSTING

European Maritime, Fisheries and Aquaculture Fund

Project number: 101111985

Funding received: € 1,321,013.54

Duration: 01/05/2023-30/04/2026

DID YOU KNOW?

- that only 29% of the European BuE industry workforce and 20% of national maritime authorities are women?
- gender balance in organisations boosts happiness, empathy, and performance in processes and results?

OUR VISION

WIN-BIG's envisages a world where women have equal opportunities and adequate tools to fulfil their purpose in life and actively contribute to a more sustainable and blue future.

OUR MISSION

WIN-BIG will close the knowledge gap on current status of gender across Blue Economy sectors and EU sea basins, while mapping and addressing the yet persisting capacity building needs of women in emerging sectors to ensure a more gender-balanced sustainable BuE.

WHAT WE DO

DATA COLLECTION

We gather and analyse data report on the gender status of BuE sectors across the 6 EU sea basins to identify skills gap and needs.

CAPACITY BUILDING

We develop tailored training modules and Learning Labs to boost women's capacities in entrepreneurship and innovation.

COMMUNITY BUILDING

We organise tailored Women in BuE Sea Basin events and foster collaboration opportunities for women professionals.

SUCCESS STORIES PROMOTION

We promote female role models and women's leadership to debunk gender bias and inspire more and younger women.

OUR BuE SECTORIAL FOCUS

Blue sports and
sustainable tourism

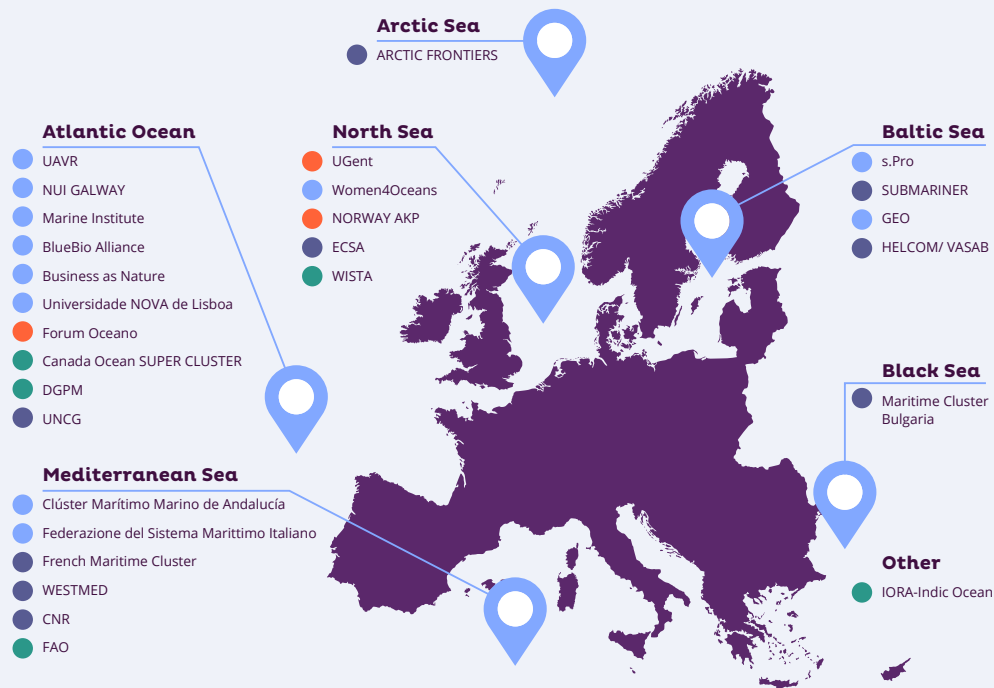

Blue
bioeconomy

Marine renewable
energy and robotic
